* FEB 7 1931 *

Border Perennials
Rockery Plants
and
Evergreen Seedlings

Fall 1930 · Spring 1931

We give no warranty, express or implied, as to productivity, hardiness or any other matter of any plants, bulbs, seeds, or nursery stock which we sell and can not be held responsible for any loss arising from the failure of such items. All shipments must be accepted on these terms or else no sale is made and stock must be returned to us in good condition for a refund of any monies paid.

TERMS

Prices—All prices are net. The "each" price holds good for any number of plants of a single variety from 5 to 250. For less than 5 plants of a variety, increase the unit price by 50%. For more than 250 plants of a single variety, decrease the unit price by 20%.

Remittance—Cash must accompany every order. These prices are quoted on a cash-with-order basis. No C.O.D. orders unless 1/3 of the total amount accompanies the order. No attention paid to telegraph orders until the remittance is received.

Packing—Careful, light packing free on all orders except C.O.D. orders, in which case the packing will be charged for at cost.

Substitution—If out of a variety, we do not under any circumstances substitute a similar variety, but instead, back order for future delivery unless instructed otherwise.

This list cancels all previous offers and the prices herein are intended only for the trade. Please give some evidence of your connection with the trade when ordering as we do not sell at wholesale to retail buyers.

These prices will be void as soon as the listed surplus is gone.

Orders will be filled in strict rotation as received.

JAMES H. BISSLAND & SON

Rockery Plants and Alpines
150 RIMMON AVE. CHICOPEE, MASS.

SURPLUS LIST ROCKERY PLANTS AND BORDER PERENNIALS

This stock is all first class in every respect and we are honestly proud of it. You will be pleased with it, for it is healthy, free from disease and insect pests and there are no culls or left overs in the lot. It will make money for you for there is a great demand for rockery plants all over the country. Rock gardens are the coming vogue in gardening, and every retailer catering to a flower loving public can handle rockery plants to advantage. He can do no better than to handle BISSLAND'S ROCKERY PLANTS for we are specialists in their production and grow them in large quantities.

This stock, with but one or two exceptions, is all field grown and we send you the whole plant direct from the field unless stock is of such a nature that it is better to divide it. We do not believe in potting up a single stalk in a small pot and selling it for a high price. Our field grown plants are large, well rooted, and full of vitality and will give a good display the first season after planting. They are not too large, for large clumps, badly in need of division are every bit as poor a buy as stock that is too small. These plants are "just right"

and will give full satisfaction.

Plants are freshly dug for each order; no storage stock in the

case of spring orders.

Shipping starts September 1st for fall orders and about April 15th for spring orders.

* Indicates pot-gown.
